Array Vs Linked List Analysis		Geoffrey Corey

Objects	Time (ms)	
n	Linked List	Array
1000	0	10
2000	0	10
4000	40	60
8000	150	270
16000	590	1070
32000	2410	4300
64000	10090	17240
128000	45440	68910
256000	207290	276320

1. The Linked List implementation is the fastest
2. The only thing expected to change would be execution time.

Array Vs. Linked List Run Time
